PROFILE INFO

As a backend developer and designer, I handle tasks such as database management, server-side. logic, APIs, security, performance optimization, and more. I create robust server-side. applications and ensure seamless user experiences through effective design integration.

EXPERIENCE

INTERNSHIP   2024

- Digital Windiy, Internship (One Month)

- Developed a college-based project using ASP.NET, collaborating with stakeholders for requirements gathering and documentation. Designed and implemented system architecture and SQL database schema, ensuring high performance and security. Conducted testing, deployment, and prepared user and technical documentation.

ASHWA ENTERPRISES   2024-present

- Currently working as a software developer, focusing on designing, developing, and maintaining software solutions. Collaborating with cross-functional teams to deliver high-quality applications, ensuring performance optimization and user satisfaction.

ACHIVEMENT

- **2024**

  - I have completed the "Programming Foundations: Beyond the Fundamentals" course on LinkedIn Learning.
